## Synopsis

In response to the latest development on the Buildings Department's (BD) consultancy study on "Review of the Mechanism for encouraging a Quality Built Environment through GFA Concession", BEAM Society Limited (BSL) has implemented changes in the assessment procedures to cater for the new GFA concession mechanism to be implemented in the near future.

Compliance Assessment (CA) is introduced with the aim to facilitate the industry to offer BD assurance on the projects' green building performance at OP stage. It offers an optional interim assessment for projects undertaking BEAM Plus New Buildings Version 2.0 (NB v2.0) before the issuance of Occupation Permit (OP).

A trial run of CA is launched in iBEAM system and applicants are welcome to provide feedback for refinement before the formal implementation of Compliance Assessment (CA).

**Ir C. S. HO**  
General Manager,
